

## CNG FILLING STATION CARD - ZABALGARBI

Before you can use the Zabalgarbi compressed natural gas (CNG) filling station, you need to obtain an access and refuelling card for your vehicles.

To do this:

- 1- Fill in the form in the following [link](#).
- 2- Send the bank ownership certificate related to the bank account to the following email: [gasinera@zabalgarbi.com](mailto:gasinera@zabalgarbi.com)
- 3- The safety regulations document must be signed by the vehicle driver. Cards are specific to each vehicle and non-transferable.  
Failure to comply with Zabalgarbi rules and regulations is grounds for confiscation of the card.
- 4- If you have completed these steps correctly the card will be handed over to the driver at the first refuelling. Other forms of card delivery may be considered upon request.

Payment and billing:

- The pump has a screen on which the driver can see how many kg of gas have been loaded. After refuelling a ticket is sent by e-mail to the address indicated on the form.
- The CNG filling station has no on-site payment point, so:
  - o CNG refills will be invoiced at the end of the month.
  - o Invoices will be e-mailed in PDF format to the address indicated on the form.
  - o Invoices will be direct debited at the bank account indicated on the form within the first half of the following month.
- The price of refuelling is published and can be checked in the CNG section of the Zabalgarbi website at: [www.zabalgarbi.com](http://www.zabalgarbi.com)
- On Monday every week the price applicable to CNG refuelling from Tuesday to the following Monday will be published, along with possible discount schemes.
